Company Introduction

TOPBRIGHT Animation Corporation, a brand enterprise focuses on children's educational toys for 32 years. Since the foundation in 1989, TOPBRIGHT always adheres to the mission of "light up children's talent". The product design follows the nature of children, covers the growth needs of different ages from 0 to 12 years old, and promotes the comprehensive development of physical, mental and psychosocial competence. The company has successfully created several brands, including Topbright, Sciencecan and Zzzmoon, which is committed to building "the world's most influential children's growth brand enterprise" .

Company Brands

Topbright, relied on the theory of primary education, commits to creating a brand of educational toys for children aged 0 to 6 years.

Sciencecan, integrated with the HIBL curriculum, offers a brand of science education for children aged 5 to 12 with a holistic solution to develop scientific thinking.

Zzzmoon, based on the cognitive development theory of child psychologist Piaget, creates a bedtime story projector brand for 1 to 8 years old children.
Looking into the future, Topbright will continue to focus on doing everything that can “Light up children’s talents”.

Topbright

Absorbing the cutting edge of brain science, integrating the classical theory of pedagogy psychology, Topbright extracts the core content of primary education. Based on primary education, we develop scientific and professional family situational early educational products to maximize children's accumulation of experience and stimulate children to explore self-development paths of self-discipline, self-confidence and innovation.
